

## Hint by Two Top Leaders

### Russia to Strengthen Red Army

MOSCOW, Feb. 8.—(AP)—Two top members of the all-powerful Soviet Politburo declared today that Russia is still "encircled" by the world's capitalist powers and must take steps to strengthen her armed forces.

Simultaneously, G. M. Malenkov, secretary of the central committee of the Communist party and chief bureau alternate, told another election rally that:

### Russian Army General

### Says Nazis on Trial Have Morals

### Of Cannibals, Greed of Burglars

### Glasgow Loses

### Mowbray Only

### Unbeaten Rink

### Left in 'Spik'

Only one unbeaten rink remained in the Alberta Curling Association's 20th annual bonspiel following the early draw Friday when the King Edward Curling Club ousted the first of the victors.

After winning seven straight, the Glasgow team was down to a 1-5 deficit at the hands of E. B. Olson, also of the Royal in a King Edward trophy match.

Only unbeaten rink of the 190 rinks competing in the 20th annual bonspiel following the early draw Friday when the King Edward Curling Club ousted the first of the victors.

Two games on the a.m. draw had to go to extra ends before a winner was declared. Carl Wagner of the Glasgow team won the first of the two games on the 11th end.

### More Money Spent

### In Road Clearing

Unusually heavy snowfall in the province has made it necessary for the government to spend an additional \$100,000 to be expended by the public works department for snow clearing of main roads, according to Hon. W. A. Farrow, minister of public works.

Normally, the department spends about \$750,000 annually for the purpose of clearing the roads, but this year the expenditure has been increased and the additional cost is required.

The minister emphasized that none of this money will be used for the clearance of the roads, but that the department will spend this money on the main roads.

In order to save money, the department will spend this money on the main roads, but this year the expenditure has been increased and the additional cost is required.

### Ottawa Considers

### Short Work Week

OTTAWA, Feb. 8.—(CP)—Ottawa Board of Control yesterday decided to draft a money bill to finance a proposed five-day week for civil employees for salaries and fringe benefits at the municipal election next December. A schedule submitted to the board by the board of a five-day week would be \$1.31 million in total.

### Dutch Girls Want

### To Come to Canada

OTTAWA, Feb. 8.—(CP)—More than 10,000 Dutch girls would like to come to Canada, to settle here and make a new life for themselves, according to a report from the Dutch Consulate in Ottawa.

The Dutch Consulate in Ottawa, which is now in the process of receiving applications from Dutch girls who wish to come to Canada, is now in the process of receiving applications from Dutch girls who wish to come to Canada.

### 1,200 Striking Men

### Are Back on Duty

By JACK BULLIVANT  
DOWN AMPNEY, Gloucestershire, England, Feb. 8.—(CP)—Striking power men at the RCAF station began a repatriation protest all-day yesterday, decided to continue their strike today although a senior officer told them that such a step would be futile.

A short time earlier, 1,200 strikers at the Odiham, Hampshire, RCAF transport base decided to return to work tomorrow morning, ending a four-day work stoppage.

The ODHAM strikers voted after commanding officers had sent a communication from RCAF headquarters in Ottawa setting Monday as a deadline for return to duty and warning that if the men did not return, stoppage of pay and allowances and post-war gratuities could result, as well as delay in repatriation.

After a similar statement from Ottawa had been read by a station warrant officer and Group Capt. F. A. Sampson, personnel officer of the RCAF's London headquarters, the strikers returned to work.

GROUP CAPT. SAMPSON's address was given as 1000 Main St. and he was seen by a station warrant officer and Group Capt. F. A. Sampson, personnel officer of the RCAF's London headquarters, the strikers returned to work.

## Navy Chief Dies

### 49 Years of Age

### Canadian Navy

### Chief of Staff

### Dies Suddenly

OTTAWA, Feb. 8.—(CP)—Vice-Admiral James H. D. Stewart, chief of the Canadian navy staff and largely responsible for the numerous wartime successes of the Canadian navy, died at his home here today.

The 49-year-old naval officer who looked very much the soldier had completed his very long career in the navy for 40 years.

He was found dead in the bathroom shortly after he had been there this morning and a physician said death was due to a heart condition.

A native of Halifax, Nova Scotia, he had been in the navy since 1906.

Admiral Stewart was one of the most distinguished naval officers in the navy.

## Cycle Repeating Bad Tempers, Influenza Coming With Sunspots

By H. DENT HODGSON

OTTAWA, Feb. 2.—(CP)—For several years at least, the world can resign itself to colder and drier winters, shorter summers, poorer crops and greater epidemics, coupled, scientists say, with greater prevalence in disease such as influenza and polio.

**SUNSPOTS**—Those dark blotches on which flick the face of the sun, which have been causing the bug and crackle in radio and playing tricks with telegraphic communications, have come into their own again. The spots, recurring heavily in cycles every 11 or so years, have just started to approach their maximum, scheduled for 1948 or 1949.

Not until about 1855, when the number of sunspots swung again to the low side of the cycle, can the world expect real relief, according to the scientists. Then there should be fewer storms, warmer weather, better radio reception, abundant crops and happier and healthier people.

**SUCH, IN ROUGH, IS** the scientific outline of life as affected by the sunspot cycle, and modern studies of the fluctuations in weather, crops and magnetic disturbance lead more and more weight to the sun spot theory.

Dr. Ralph E. Delany, solar physicist at the Dominion observatory here, believes almost everything is affected in some way by sunspots. Crops and growth, generally, are subject to a 20 to 30 per cent variation during the average cycle.

In 1927, a maximum sunspot year,

## Faces Charges

Col. James A. Kilian, former commander of the U.S. military prison camp at Litchfield, Conn., faces court martial on five charges which include perjury, subornation, conspiracy, intimidation of witnesses and dereliction of duty.

Conditions at the camp were such that it earned the nickname "GI concentration camp."

**THE GREAT INFLUENZA** epidemic of 1918-19 also coincided with a sunspot maximum, and scientists believe the connection is one of pulmonary tuberculosis, meningitis and other diseases.

Sunspots actually are large whirlwinds running rampant on the face of the sun. They are accompanied by high-level clouds of very high temperatures, called "faculae," which radiate outwards from the sun, have been measured as reaching as far as 10,000,000 miles.

**THESE "FACULAE"** and the accompanying spots, block off some of the sun's rays, but the more important part of their effect on the earth is the ultra-violet rays.

Ultra-violet light given off by the sun's surface, radiates towards the earth. Thus a maximum sunspot year is accompanied by more ultra-violet light.

The ultra-violet light, meeting the rare atmosphere, causes the aurora borealis, and the aurora borealis, through the rare atmosphere and give off light, causing our "northern lights," disrupting the performance of compasses, and causing other magnetic disturbances which affect radio and telegraph operation.

## No Anti-Semitism Found in Poland

LONDON, Feb. 2.—(Reuters)—Samuel Lipshitz of the Canadian Jewish weekly, said Thursday on his return from a two-month tour of Poland as a Canadian Jewish Congress representative, that there was no anti-Semitism in Poland.

"The true situation regarding Jews in Poland is being greatly misrepresented," said Mr. Lipshitz. "Anti-Semitism exists all over the world, but to say there is a wave of it and that it is engendered by the Polish government is completely false."

Whatever anti-Semitism exists in Poland is the result of pre-war conditions and six years of Nazi occupation and propaganda, he said, and added the Polish government is "bending backwards" to please the Jewish population.

Mr. Lipshitz said there is a Jewish mass exodus movement and that comparatively few of the work in making safe meeting grounds for the Jews.

## Urges Dominion To Offer Money To Great Britain

VANCOUVER, Feb. 2.—(CP)—Hon. H. H. Stevens, former federal cabinet minister, released yesterday copies of an open letter to Prime Minister Mackenzie King calling on the Dominion government to offer Britain a loan of \$2,000,000,000 or \$3,000,000,000 at nominal interest rates.

Mr. Stevens, minister of trade and commerce in the Bennett Conservative government, asked Mr. King to ship supplies to Britain immediately on a No. 1 priority.

Mr. Stevens contended that Britain had lost so much in the war as contrasted with the economic gains of the United States and Canada that the United Kingdom "ought not to be forced to the position of a mendicant suppliant at the doors of congress."

Mr. Stevens, minister of trade and commerce in the Bennett Conservative government, asked Mr. King to ship supplies to Britain immediately on a No. 1 priority.

## Bracken Praises Ducks Unlimited

NEW YORK, Feb. 2.—(CP)—American and Canadian sportsmen through the company known as Ducks Unlimited in the last 10 years have helped to increase the North American duck population by some 100,000,000, John Bracken, Canadian Progressive Conservative leader, said last night.

Bracken, less than 40,000,000 ducks came back to your land in the fall," said Mr. Bracken in a speech prepared for delivery before the New York committee of Ducks Unlimited. "From then on there was an increase in the south, and flights, until in recent years an estimated 140,000,000 ducks came down from Canada to the United States."

"Is it any wonder this project has been described as the conservation miracle of the century?" "BUT I MUST NOT leave you with the impression that your task is finished. The work of yesterday is done. I think it has been well done. The duck population has climbed in less than a decade from 40,000,000 to over 140,000,000. But your goal was not a 100,000,000 advance—it was 200,000,000, thus making a total of 240,000,000, where before the decline there was 400,000,000. The entire half of the original objective has been reached; the more difficult half has yet to be realized."

Mr. Bracken, a director of Ducks Unlimited, said that American sportsmen had provided most of the money for the American conservation program. Canada had supplied the land and had done much of the work in making safe meeting grounds for the ducks.

## Three Fires Ruin Quebec Buildings

QUEBEC, Feb. 2.—(CP)—A fire, relieved to have originated early in the loud speaker room of a restaurant, last night leveled the public skating rink at nearby Beauport, six miles east of Quebec. Volunteer firemen rushed to fight the blaze, the third one to strike in the Quebec district in less than 12 hours, and although they saved adjoining houses, the wooden structure housing the rink was gutted in less than one hour.

Because the fire broke out at supper time, no one was in the building when firemen answered the alarm. Extent of damage was not known. No one was injured.

EARLIER YESTERDAY No. 100,000,000, thus making a total of 240,000,000, where before the decline there was 400,000,000. The entire half of the original objective has been reached; the more difficult half has yet to be realized."

Mr. Bracken, a director of Ducks Unlimited, said that American sportsmen had provided most of the money for the American conservation program. Canada had supplied the land and had done much of the work in making safe meeting grounds for the ducks.

## Australia Faces Sharp Shortage Available Labor

SYDNEY, Australia, Feb. 2.—(Reuters)—Australia is suffering from a labor shortage and though thousands of young people are leaving school after final examinations and thousands more are coming out of the services, employers cannot find sufficient labor to fill the bare requirements of expansion.

Yet they are faced with the paradox of "shortage amid plenty" of hundreds of men and women applying for specific jobs and refusing to take any other. Thousands of jobs are advertised daily in the press, while "situations-wanted" columns are nearly empty.

Machinery hire firms in textile factories while thousands of servicemen are told through statements in the newspapers that suits cannot be provided for them in less than three, four or even five years.

## Sheep Production Drops in Canada

TORONTO, Feb. 2.—(CP)—Provincial delegates to the Canadian Sheep Breeders' Association reported yesterday a reduction in production last year all over Canada. Reasons for the reduction were given as labor scarcity, poor crops and subsequent low prices.

The range has been reduced by a number of other buildings, but the blaze was kept from spreading.

LA TOUT, on lowermost King street, took fire from around corner and leveled the building in less than two hours. No one was injured, but about \$15,000 of newspaper stock in the cellar was destroyed. The building was used mostly for boxing and wrestling shows.

## Sask. Dairymen Request Changes In Income Taxes

SASKATOON, Feb. 2.—(CP)—A resolution calling for changes in the present income tax schedule as applied to farmers was approved yesterday by the annual convention of the Saskatchewan Dairy Association.

It asked the tax be based on the average income of the previous five years instead of one year as at present; that money received from sale of dairy cattle at dispersal sales be treated as capital for taxation purposes since the dairy herd was part of the owner's capital; and exemption be granted to cover work done on the farm by the farmer's family.

It also asked standards of exemption should be raised since the present structure tends to discourage increased production and in some cases delays the marketing of produce from the year of production to the following year.

## Delay Referendum

GREENWICH, Conn., Feb. 2.—(AP)—Referendum on the selection of Greenwich as the site of the UNO permanent headquarters has been postponed from Feb. 23 to March 3, town officials said yesterday. The postponement has been made to allow residents to review voting lists.

## Edmonton Bulletin

ALBERTA'S FIRST NEWSPAPER  
Founded in 1880 by Hon. Frank Oliver.  
Published every afternoon except Sunday by the  
Alta Press Press Limited, at the Bulletin building,  
561 Jasper Avenue, Edmonton, Alberta, Canada.  
CHARLES E. CAMPBELL,  
Owner and Publisher.

Subscription price: Daily by carrier, 25 cents per week. Daily by mail in Canada, except Alaska, one year, \$7.00; outside Canada, \$10.00. 3 months, \$2.25. Saturday only by mail in Canada, except Alaska, \$1.00 per year. Daily by mail to U.S.A., \$2.00 per year.  
Advertising: As second class mail, Post Office Department, Ottawa.  
Sellers: Canadian Advertising Representatives, Edwards & Finlay, 40 Richmond Street, W., Toronto, Ont.

Member of The Canadian Press: The Canadian Press is exclusively entitled to the use for republication of all news dispatches hereon. The Associated Press in this paper, and also the local news published thereon, in whole or in part, or in editorial dispatches herein are also reprinted.

### Co-operate With the Police

It is somewhat shocking to learn that during the month of January city police constables on their downtown beats found fewer than 100 business premises unlocked after business hours.

Over 100 unlocked business premises were open invitations, not only to professional burglars, but to undiscovered juveniles on the prowl for illicit adventure.

This latter point is, perhaps, the most serious feature of the situation.

This carelessness on the part of proprietors, of course, makes it more difficult for the work of the police department. But even this is secondary to the fact that temptation is offered to boys and young men who might be led, by someone's inattention, to take the first step into a life of crime.

Citizens should not expect miracles of the police. They are entitled to expect police protection only after they themselves have taken every possible precaution to safeguard their belongings from thieves, amateur and professional.

The householder or business man who fails to make his premises secure is simply asking for trouble.

### Lost Overseas Parcels

The Canadian post office department owes it to the Canadian public to make a frank statement about what is being done about the large number of overseas parcels which have "gone astray" since the end of the war.

Complaints have been made not only by individuals but by firms which make up parcels of foodstuffs, clothing and other necessities to service men and women still stationed in Britain and continental Europe.

The insurance companies, it is said, have traced many of these parcels to leakages into the English black market. One is moved to wonder at what point of transportation these parcels occur, and why the insurance companies can trace the destination of the lost parcels, why the post office department cannot trace those employees who are responsible for it.

This pilfering is particularly reprehensible at a moment when an acute food shortage is doing something to shake the nerves and ingenuity of the public would like to know what it is.

### It Could Have Been

Delay in reaching agreement on the revision of the financial and functional relations between the Dominion and the provinces threatens to postpone the launching of reconstruction programs by both federal and provincial governments. Indeed, the lack of these plans seems to be inevitable.

Until it is known what sources of revenue the Dominion is to have and what subsidies and enabling legislation it is to have to receive, neither can know what scale of expenditure it is safe to undertake. What financial resources the provinces are to have are determined only toward the end of April at the earliest, for the conference does not assemble until the 25th of that month. More likely it will be only in the middle of the year that the provinces will be reached and a bargain finally struck.

By that time the provincial legislatures will have finished their sessions and the parliament will be working its way through the charted sessional agenda. None of these bodies can include its reconstruction program complete in the draft of business for its coming session. At best it will be safe to include only projects which can be carried out on a piecemeal basis, with resources not available—for it is possible that the provinces will again fail to reach agreement and the present acrimony continue indefinitely.

It is very unfortunate that reconstruction plans should be hampered in this way, for there is need that all the governments get ahead with their reconstruction programs on a broad scale in time to take full advantage of the coming construction season. Nor is there any profit now in emphasizing where the blame lies for the delay. But at least the record it is to be noted that Premier Drew of Ontario is the man chiefly at fault. He could as well have stated his position and showed that they understood the program, and thus made it possible that a settlement could be arrived at when the federal and provincial representatives got together last month.

### A Poor Get-Away

The members of the Security Council will not look back upon their first appearance on the world stage as a happy experience. Rather, they may doubt that it failed to establish the military and political desirability for a body charged with such vast powers and responsibilities.

The Council in fact got away to a bad start, though no fault of its own. When the members took their chairs for the first time they found on the table before them a request that they undertake the prosecution of British troops in Greece to be a menace to international peace. The accusation came from Moscow, and was of course duly supported by M. Vishinsky.

It happened that Mr. Ernest Bevin is not

a man to take a charge of that kind lying down, nor to seek an easy way out. He demanded that the Council take a vote on the question, and so they did. But the vote was not in his favor.

Then came the curious turn in the affair—the comedy interlude, which could be called if the matter were less grave. M. Vishinsky didn't want to say "no" in a more emphatic terms. He even invoked Russia's right of veto to prevent a vote being taken. Moscow, he found, had put him on the spot, for there was no doubt what the verdict would be.

In the end, Premier Stalin or M. Molotov broke the deadlock by withdrawing the accusation unreservedly, and M. Vishinsky announced the withdrawal with obvious relief.

All's well that ends well, and it is fortunate that the Council escaped by a pretty narrow margin—a split which must have left bitterness, shaken world confidence in the peace-control machinery, and perhaps have caused a permanent cleavage, with Russia standing alone.

But the whole incident was not a happy start-off for the body. The minimum wage of \$33.00 per week, a 40-hour work week, and holidays with pay. The demands are not extreme, which encourages hope that a settlement can be arranged without the industry being paralyzed at a time when steel is urgently needed, and prospectively scarcer even than it was in wartime.

Steelworkers in Canada decided that their Hamilton conference to press for a minimum wage of \$33.00 per week, a 40-hour work week, and holidays with pay. The demands are not extreme, which encourages hope that a settlement can be arranged without the industry being paralyzed at a time when steel is urgently needed, and prospectively scarcer even than it was in wartime.

General MacArthur did not intervene to commute the death sentence imposed upon General Yamashita by the military court in Manila. The refusal implies that General MacArthur agrees with the court that Yamashita was personally responsible for the atrocious crimes which he committed in the Philippines. That was the charge on which the Jap commander was convicted and sentenced.

British radio listeners will have to pay \$4.50 for their receiving set licenses in future, double the Canadian charge. What is the difference? A difference is that the B.C.B. operates strictly as a public service system, while the Canadian system is a commercial one. The C.B.C. supplements its revenue by running sponsored programs. Herbert Morrison, in defence of the increased fee, said the British system can be arranged without the industry being paralyzed at a time when steel is urgently needed, and prospectively scarcer even than it was in wartime.

The C.B.C. could get along without advertising unless the fee for a receiving set were doubled here also.

### Looking Backward

From The Bulletin Files

#### 1886: 60 Years Ago

An alarm bell was received from Calgary setting for the night events that were to take place on Wednesday if the sale of ex-Mayor Murdoch's stock in payment of the fine imposed upon him by the Calgary court was a success. As nothing has been heard of the matter since, it is probable that the sale of the stock was successful, and that the Mayor's fine was paid.

The program further stated that the town solicitor had served notice on the mayor and council declaring their action void, and that their appointment was illegal. Notice has also been served on the Mayor.

Mr. Ingram, who cut his foot badly two weeks ago, is progressing favourably. He started for the place where he was injured on Friday, and not on Sunday as stated before, so the accident can not be said to be breaking the Sabbath. But those who were there at the time of the accident had something to do with it.

#### 1896: 50 Years Ago

L. K. Benz of Wetaskiwin is erecting a steam flour mill on the Big Stone creek at Frank's Fork place, in the Calais tract, about a league and a half west of Wetaskiwin.

Court will sit here on February 28, Judge Houleau presiding. The annual meeting of the Edmonton Fire Brigade No. 1 was held Monday evening. Chief MacDonald presided.

#### 1906: 40 Years Ago

London—A prospectus has been issued by the Western Land Company which has acquired half the acres of land from the CPR in the Edmonton district.

Acting on instructions issued by the city council, the city engineer is preparing plans for three miles of street railway line which it is proposed to lay next summer.

#### 1916: 30 Years Ago

Ottawa—Sir Wilfrid Laurier gave notice of a resolution calling for an investigation into the operations of the steel committee.

Vancouver is a candidate for the Sun, Cap, Plaza, former chief of the Chilean Naval Commission in the United States, explains why he has left the submarines which were subsequently purchased by Sir Richard McBride.

#### 1926: 20 Years Ago

The new pier at Fort Resolution, on Great Slave Lake, was opened for traffic on Friday.

The city council is sharply divided over the question of abolishing PR and going back to the old system of electing council members.

#### 1936: 10 Years Ago

### The Meaning of Mr. Justice Rand's Decision

Final Test of Judicial Award in Ford vs. United Automobile Workers Dispute Is Whether It Is Workable, But It Secured Agreement on a Fair Basis

By M. Grant O'Leary

In the O'Leary

able as corporations in the courts, all other action with respect to them is temporary. The answer is that Justice Rand did not become an arbitrator to impose a peace in the mood of war.

Justice Rand did not become an arbitrator to impose a peace in the mood of war. He was asked to impose on either the workers or the company an agreement on a basis of fairness, having regard to the circumstances, to get the men back to work and to keep them there. To talk about a law making the unions more responsible is in this case irrelevant.

NOT THAT JUSTICE RAND ignored union responsibility. On the contrary, he decreed:

1. The union is required to arbitrate in writing any dispute between its members and its members to cross out.

2. Fines of \$3 per day are to be imposed on all employees participating in unauthorized strikes, as well as a loss of a year's seniority for each consecutive week on strike.

3. The union is to be penalized for suspension of the contract for from one to six months if it is not to choose its arbitrator.

These are still penalties. I doubt if any union anywhere has been subjected to them before. Nor are they to choose its arbitrator.

The union has accepted these penalties, and has agreed to accept them. In itself, it is a gain in responsibility.

THUS in brief Mr. Justice Rand's award, its final test, its wisdom or its lack of it, will be in its operation. What we have to see, at least, is effort to understand it.

Justice Rand's award is not trying to understand it. It is not time for him to write a book. He is not a philosopher.

## North America Now Holds Onus Of World Peace

NEW YORK, Feb. 5.—(CP)—The onus of preserving peace in the world has shifted to the North American continent, and "we must accept the responsibility for establishing a peace . . . that will not need to be a well-prepared for another war," John Bracken, leader of the Canadian Progressive Conservative party, said last night.

IN A SPEECH at the annual dinner of the New York city committee of Dicks Unlimited, Mr. Bracken said that if a third world war should come, it would not necessarily come by way of Canada. "It might come by way of Canada," he said. "Fifty years ago, the prevention of war was not considered to be the business of this continent. Now it is very much our business. We now find ourselves at one of the main crossroads of the world's affairs."

"We in Canada have a geographical area comparable to yours but only one-twelfth of your population. We are not one of the big three, nor one of the big four, nor one of the big five. But no nation has a greater stake in peace than Canada."

"AND THE ONUS of preserving peace has shifted to this continent."

Canadian Pacific  
AIR LINES

If we are going to preserve peace, we must make a start beginning by abolishing the arms of war. Standards of living in nation states must be respected. But it will be well for us both to remember that international trade restrictions are not free from some, at least, of the germs of war."

Mr. Bracken, pointed to what had been done by Canadian and American sportsmen in rebuilding the continent's duck population, said Canada and the United States had set "an example of amity in international relations to the rest of the world."

However, in a measure "we have treated the resources of this continent as if our interests were mutually antagonistic," he said.

"A CANADIAN CITIZEN today pays at least \$200 more for a motor car than his neighbor across the border, and if an American militiaman has to pay a toll of 42 cents before he can take it across the line. Our fish, our cattle, our lumber and our metals are still subject to your heavy duties; and much of your manufactured goods face similar obstacles of our making."

Mr. Bracken recalled how the depression of the 1930's had led to the establishment of trade barriers. "We in Canada were denied certain markets in your country," he said. "We therefore sought a more favored position in the British market. And that position we shall hesitate to relinquish without comparable gains elsewhere."

"BUT WE HAVE a bigger stake in foreign trade than to let matters rest as they are. We feel that if the area of relative freedom of international trade is continuously narrowed and the area of trade interference widened, international commerce will develop into a power contest."

The Rev. Eugene Cullinan, professor of economics at St. Thomas More College, University of Saskatchewan, will address a public lecture Monday night on the subject "The Catholic Church and Socialism." The meeting, sponsored by the Edmonton New Era Club, will be held at 8 p.m. in the Masonic Temple.

## Charges Plot Canada Proud Of War Effort N.Y. Club Told

NEW YORK, Feb. 5.—(CP)—Canada yesterday was pictured to a United States audience as a country proud of her war achievements, her foreign and confident, yet liable to frustration if the great powers were unable to compose their differences, and looking forward to the north country for great expansion.

THE PICTURE was given by Lester Pearson, Canadian ambassador to Washington, to a luncheon of the Rotary club of New York.

"Canada enlisted more than 1,600,000 men to fight," Mr. Pearson said in reviewing war accomplishments. "We were the fourth largest producer of munitions and war supplies among the United Nations."

"The amount of such supplies we gave our allies under mutual aid was in terms of relative national income, even greater than you yourselves (the United States) gave under lend-lease."

CANADA FACED the post-war world with a sober realization of its difficulties, but with confidence in her future. "If the great powers allow us to have any future at all, political or economic."

"Our real danger, and this is a danger for all middle and small powers, is that the big three, the Titans, may not be able to work together. If they are not, the resulting disputes will be dragged in."

"CANADA, which has been at war for 10 years in the last 20 years, issues which also did not raise in parts of the world far removed from her shores, has as much reason as any country to know that, in this shrinking world, isolation is for her impossible."

"We realize that our future is bound up with the future of the United States and the United Kingdom and the Union of Soviet Socialist Republics, almost as much as if we were an English country, or an American state, or a Soviet republic."

"No matter how well and how wisely we may order our affairs in Canada, if there is chaos or distress in, say, this country (the United States) we are bound to be affected by it and at once."

TO STUDY PLANS Vets' Training At Local Meet CALGARY, Feb. 5.—(CP)—Training veterans in retail salesmanship will be discussed at the annual meeting of the Canadian Radio and appliance dealers in the Macdonald Hotel, Edmonton, Feb. 18.

Plans are to offer the training in conjunction with the department of veterans' affairs and Canadian vocational training schemes. Committees from the radio and appliance dealers and other sections of the Retail Merchants' Association will be established to draw up curricula and methods of training. Don Knapik, Calgary, will preside at the Edmonton convention.

Other subjects to be considered at the convention will include the report of the national executive on recent regulations by manufacturers regarding equitable distribution; consumer credit and services to consumers.

### Rotary Club Holds Annual Ladies' Night

Business executives, their wives, World War II veterans sons and daughters plus more than 100 guests, totalling close to 600 persons, Thursday evening enjoyed the Rotary Club's annual ladies' night celebration in the main banquet hall of the Macdonald Hotel. First prize money in six, it also marked the Rotarians' "welcome home" for sons and daughters of Rotarians who were veterans of the war.

CARDS, DANCING and games were preceded by an address of welcome to the returned boys and girls by Rotarian William Bruce, who extended also to the guests of the evening the Rotary Club's welcome and greeting.

Responding on behalf of the returned veterans, Rotarian Mel, William Taylor said one of the things that made home coming attractive was not a peace that was too good to be true. "Having destroyed we must now reconstruct or all our efforts will have been in vain," the major stated.

HE SAID EFFORTS of returned personnel should be directed toward establishing a sound peace, and not a peace that was too good to be true.

Entertainment was provided by the large gathering by W. Townsend in vocal solos. F. Adamson, in violin selections, and special solo by Benice Macbeth. Jack Toulson gripped the audience with well-audited piano novelties. Sid Weber was in charge of the cards while Mr. McArthur acted as master of ceremonies. Gordon Henry, president, was chairman, and Lyall Stoper conducted the community singing.

### Case Held Over For High Court

Glen Chamberlain was committed for trial at the next sitting of the Supreme Court when he appeared in police court Thursday on a charge of indecent assault. He is alleged to have assaulted Mrs. Joan Schegelski last Jan. 31 at the home of Ivan Erickson, 10838 27 street.

Erickson, who faces a charge of common assault, was remanded until Feb. 12. In police court Wednesday he was fined \$50 and costs or three months, on a charge of illegal possession of liquor.

ANNOUNCING his decision to commit Chamberlain for trial at the higher court, Magistrate A. L. Miller, K.C. pointed out that there was a possibility of "a more serious charge, namely rape."

Mrs. Schegelski admitted having known the accused man for "two or three years." Clothing, said to have been torn off her back, was entered as exhibit.

**COLOR CONSCIOUS**  
LONDON.—(CP)—British industry is stressing the use of color as an incentive to higher output.

A North England cotton mill recently announced its intention to paint its looms in lime green and duck egg blue, and its walls in green and light gold.

### Honor F.D.R.

The U.S. mint is now making the Franklin D. Roosevelt dime to go into circulation Feb. 5. Face of the new coin carries the profile of the late president. On the other side is the torch of liberty with the olive branch and peace and the oak branch signifying strength.

### McCoys Health Service

THOSE WHO "SUFFER IN SILENCE"

Patients with hemorrhoids or piles, frequently say nothing about their discomfort, preferring to suffer in silence. This attitude usually understood, prevents relief from being obtained. The distress which may be endured from hemorrhoids may often be relieved in a satisfactory manner.

A hemorrhoid is a swelling produced in the rectal region by an unnatural stretching of a vein. It may become more tender and raw, and may protrude or "come down."

In the bleeding type of hemorrhoid, there is an escape of blood.

In severe cases, hemorrhoids are capable of causing a great deal of distress while the patient is walking or standing. Due to the presence of many sensitive nerves in the last few inches of the intestinal tract, hemorrhoids are likely to become extremely painful.

The pains are described in various ways by the patient, as burning, gnawing, bearing down, and so on. In some cases, in itching sensation is noticed.

One of the factors in the situation usually not understood by the layman is that hemorrhoids may contribute to a large degree to what is called "nervousness."

A special irritation of this kind will often produce nervous symptoms which may seem to have no connection with the hemorrhoids. If a patient is being bothered with any form of nervousness it is imperative that all irritation at the rectum should be removed before a complete recovery is expected.

Constipation is the chief cause of hemorrhoids, although the frequent use of laxatives is also an important factor in the cause of rectal irritation of this kind. Hemorrhoids may also be found in those who are prostrated, and in women having a history of having borne many children.

When hemorrhoids have reached the first stage the patient may be able to help himself at home to a large extent by adopting measures which will correct constipation, by the use of a local treatment consisting of the application of ice, and by soothing the inflamed membrane with cocoa butter. As soon as all symptoms disappear, it is not necessary to continue the ice treatment, for if the patient will live on a non-constipating diet and will otherwise take good care of himself there will not be any return of the local trouble.

Once hemorrhoids have reached the intermediate stage or the severe stage it is not likely that a home treatment will be sufficient and I strongly advise that the patient lose no time in consulting his physician. With modern methods of treatment it is usually possible to provide relief, even though perhaps the condition has been neglected, and it is therefore unnecessary to suffer from the discomfort of hemorrhoids in this day and age.

All questions regarding health and diet will be answered. Large stamped, self-addressed envelope must be enclosed. Write on one side of paper only. Letters must not exceed 150 words.

McCoys Health Service, The McCoy Building, 1381 West 6th Street, Los Angeles, Calif.

### Debuter

**SNOW IS WARM**

Snow comes in winter and forms a blanket over the earth to keep young roots and plants from freezing to death. It is an effective insulator and prevents the escape of the warmth of the earth. Eskimos use snow houses to keep them warm in winter. When the snow is dropped to 15 degrees below zero (Fahrenheit) in Washington, D.C. in 1880, government meteorologists found the temperature of the ground under the snow to be a little above freezing. So snow is warm—that is, it keeps out the same as "warm" clothes do.

### Amendments to City Charter Are Reviewed

Qualified voters in Edmonton's civic elections who are confined to hospital on election day will be able to cast their ballots if an amendment to the city charter proposed by the bylaws committee is passed by city council, and is ratified by the provincial Legislature.

THE PROPOSED amendment is one of three dealing with the civic election. The others provide for blind persons casting their ballots through a friend rather than through deputy returning officers, and the broadening of the qualifications for voters at the advance poll.

A suggestion by Mayor Harry Ainlay that municipal election day be made a civic holiday was not entertained by the committee.

Seven proposed amendments were considered by the committee and their endorsement recommended to city council.

THE COMMITTEE declined to take action on a proposed amendment which would empower council to grant exemptions from special license fees imposed upon persons commencing business in the city.

Committee members were of the opinion that the special license fee was a protection to city merchants against non-residents taking advantage of seasonal selling opportunities to the detriment of established business places in Edmonton.

One proposed amendment dealt with the abolition of the sinking fund as a method of financing the city's debt.

Committee members were of the opinion that the sinking fund was a protection to city merchants against non-residents taking advantage of seasonal selling opportunities to the detriment of established business places in Edmonton.

### Secret "Club 400" On Varsity Campus

A secret society, known on the university campus, rumored on the campus, has been stirring up curiosity among students. Although the nature of the organization has not been disclosed, it is said to have a list of members within the city in accordance with the exigencies of the circumstances.

Another amendment sought will permit blind persons if they so desire to vote at civic and school board elections with the assistance of a friend, instead of with the assistance of the deputy returning officer. Request for this amendment was made by the Canadian National Institute for the blind.

AN AMENDMENT also is sought to empower city council to carry out any local improvements work notwithstanding lack of consent of a majority of abutting owners concerned in cases where, in the opinion of council, such works are required or necessary in the general interests of the district in which the works are situated.

City council, through another amendment, is seeking power to impose a special rate of assessment and tax on lands and buildings situated in any district of the city in which, in council's opinion, special conditions exist justifying a special rate of assessment and taxation differing from the general rate.

AUTHORITY is sought in another amendment to impose special street railway or bus fares in respect of any extensions of the city transportation system. This amendment is sought to enable city to take operation of bus routes in the city now served by private transportation companies to be charged by these companies for the service.

COUNCIL WILL ALSO seek amendment to empower the city commissioners or other designated officers to designate the placement of traffic signs—including

DOROTHY DIX SAYS—

# Wife Has More Chance Than "Other Woman"

Classic Example of Man's Arrogance and Woman's Lack of Backbone in Case of Husband Who Cannot Decide Whom He Really Wants

DEAR MISS DIX: My husband and I have been married 18 years. We have two boys, one 14 and one 16 years old. We have always been happy until now, but since my husband has returned from the army he has told me that while he was away he met a woman he believed he thinks more of than I do. He said he wanted to go back where this woman lives and see which one of us he cares the most for. He did go and stayed

## Embroidery for Her

By ALICE BROOKS

7076

Embroidery adds elegance to a dress—makes it look expensive. Do this yourself, make and embroider this dress. It will delight her. An embroidered frock is distinctive. Pattern 7076 has transfer of bodice, 7 skirt, medium, complete pattern, sizes 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228,
